

PRESTWICK PHYTOCHEMICAL LIBRARY

Accelerate your lead discovery

- An original collection of 320 small molecules (mostly from plant origin)
- Unique starting point in hit/lead discovery programs
- High chemotype diversity
- Pure compounds (no crude extracts or fermentation broths)
- Excellent "hit-workability"

MOLECULAR FAMILY

CUSTOMISATION & GUARANTEED RESUPPLY

- DMSO solution (10mM) from 100 μ L up to 1 mL with customised plating (96 or 384 wells, or your own plates)
- Dry powder (from 5 mg). Cherry-picking possibility
- In option: Follow-Up Service (Med Chem assistance)
- FREE: Highly annotated database including side effects and repositioning data.
